Are you “flipping out” about having to take Chemistry?

We have a flipped classroom CHEM course available Fall 2014 – taught by Dr. Scott Reid!

CHEM 1002 Flipped

- 4 credit hours (75 min discussion, 3 h lab per week)

- Flipped classroom concept:
  - No lectures! Lecture content available online 24/7 in short 10 minute videos with self-paced online quizzes to help you keep up with material, paired with online discussions
  - Interactive learning facilitated through a weekly 75 minute discussion/problem solving session led by Professor Reid
  - Laboratory component of course is unchanged; discussions will incorporate laboratory material
