I understand that credits earned from coursework completed outside MU will not be posted to my record until an official transcript is received at MU, processed by the Office of the Registrar, and evaluated by the appropriate college/school. I acknowledge that if I take courses outside MU at any time during my MU career, particularly in my final semester at MU, and MU does not receive an official transcript by "the last day to receive official transcripts", as listed on the Academic Calendar, my graduation date may be delayed by one semester.
