

# You've got a smarter dental plan

Your dental plan has been modified to take advantage of the emerging science of evidence-based dentistry.

Delta Dental of Wisconsin's new Evidence-Based Integrated Care Plan (EBICP) integrates medical and dental care. EBICP customizes benefits at the individual level by offering additional services to persons who have specific health conditions (diabetes, pregnancy, or serious periodontal conditions) that can be positively affected by additional care.

If you have one or more of the medical conditions covered under EBICP, you'll need to enroll at Delta Dental to become eligible for additional benefits. Delta Dental has made it quick and easy – there are just a few simple questions to answer. You can enroll yourself or your dependents, or your dentist can enroll you. Once you enroll, you are immediately eligible for the EBICP benefits.

## How to sign up

- Go to the home page of Delta Dental's website, [www.deltadentalwi.com](http://www.deltadentalwi.com).
- Click on the link under the headline "EBICP: A Smarter Dental Plan."
- Near the top of that page you'll see a link for subscribers to click to verify EBICP eligibility. (If you are not already a registered user of Delta Dental's Subscriber Connection services, you will need to establish a username and password. This is done to protect the confidentiality of your personal health information.)
- After you have successfully logged in, you will be able to enter or update the small amount of health information required to qualify for extra benefits for yourself or your dependents. You will be immediately eligible for those benefits.

*You may also enroll in EBICP by calling Delta Dental's Benefits Center at 800-236-3712.*

## Learn more with Delta Dental's free e-newsletters

Delta Dental of Wisconsin also offers free e-newsletters for pregnant women and persons with diabetes or periodontal conditions. Learn more about improving your oral health and overall health by signing up at [www.deltadentalwi.com/subscribe](http://www.deltadentalwi.com/subscribe).

### EBICP benefits for persons with diabetes

With an indicator for diabetes, the enrollee will be eligible for four visits in a year (four CDT code 4910 — periodontal maintenance, or two CDT code 1110 — adult cleaning and two CDT code 4910). Coverage will be at the group-contracted benefit level, with the additional frequency allowance being the only change. There is no end date on this additional coverage. There is no age requirement and the patient may be the subscriber, spouse or other covered dependent.

### EBICP benefits for pregnant women

With an indicator for pregnancy, the enrollee will be eligible for one additional visit during the time of the pregnancy (CDT code 4910 — periodontal maintenance, or CDT code 1110 — adult cleaning). Coverage will be at the group-contracted benefit level, with the additional frequency allowance being the only change. There is no age requirement and the patient may be the subscriber, spouse or other covered dependent.

### EBICP benefits for persons who have had periodontal surgery

With a history of periodontal surgery, the enrollee will be eligible for four visits in a benefit year (four CDT code 4910 — periodontal maintenance, or two CDT code 1110 — adult cleaning and two CDT code 4910). Additionally, the enrollee will be eligible for two applications of topical fluoride varnish in a benefit year. Coverage will be at the group-contracted benefit level, with the additional frequency allowance being the only change. There is no end date on this additional coverage. There is no age requirement and the patient may be the subscriber, spouse or other covered dependent.
