CITI Course Enrollment questions

You will be provided a series of questions. Your responses will determine the curriculum for the courses you are going to take. Please read the questions carefully. Please answer the responses carefully to make the best choice.

This institution provides a course for Human Subjects Protection and Laboratory Animal Welfare.

Human Subjects Protection Course:

- If you have not completed a CITI course at this institution previously, you are required to complete the HSPC course at this time.
- If you have completed the CITI basic course since 5-1-2004, the software is programmed to show you the CITI refresher course.
- You may be able to fulfill your refresher obligation with the CITI Good Clinical Practice Course. Please consult your IRB office.

For more detailed information review the Instructor’s page of your institution. This page is available as a link at the top of this page.

Laboratory Animal Welfare Course

If you are planning to use lab animals in your work:

- Choose the appropriate courses according to your role in research.
- Choose all that apply.
- If you have questions regarding your training requirements, you should contact your IACUC Office.

CITI Curriculum Selection

You may enroll in multiple courses. You can take the courses sequentially or together. You should use multiple login sessions. The selectable courses in the CITI program are:

- The Human Subjects Courses
- The Lab Animal Welfare Courses
- Good Clinical Practice (GCP)
- Health Information Privacy and Security (HIPS)
- Responsible Conduct of Research (RCR)

Click here to review the Marquette University instructions page.

Question 1

Animal Care and Use

Please select below according to your role or type of research you are conducting.

- Research Staff
- Animal Resource Center Staff
- Lab Staff, Post Doc, Lab Managers
- IACUC Members and IACUC Staff
- ASCC Community Members
- Marquette Students working with Animals
- Animal Surgeons
- Not at this time.

Question 2

Please select any additional courses that may apply to you. Choose the appropriate species specific electives according to your research interests.

- Additional Electives
- Post-Approval Monitoring (PAM)
- If you plan to conduct studies that have the potential to cause "more than momentary pain and distress" in mice or rats you should complete the module on "Minimizing Pain and Distress."

Choose the appropriate species specific electives depending on your work or interests.

- Work with Frogs, Toads, or other Amphibians
- Work with Mice, Rats, Murine Oncotlines
- Work with Rodents, Gen. Rattus
- Work with Rabbits, Gen. Oryctolag
- Work with Horses
- Work with Fish
- Work with Zebras

Question 3

Biosafety/Biosecurity

Please make your selection below to receive the courses in the Biosafety/Biosecurity Course.

- Animal Biosafety
- Animal Biosecurity Training
- Basic Introduction to Biosecurity for Students
- Biosafety Refresher
- Shipping and Transport of Regulated Biological Materials
- Environmental Health and Safety
- Institutional Biosafety Committee Member
- Not at this time.
Check all that apply: Note – you will be able to add or remove courses at a later time.
Once Complete: Check Complete Registration

Add a Course or Update Learner Groups

### Animal Care and Use

Please select below according to your role or type of research you are conducting.

- Researchers/PIs
- Animal Resource Center Staff
- PIs Staff - Post-Doc, Lab Managers
- IACUC Members and IACUC Staff
- IACUC Community Members
- Marquette Students Working with Animals
- Animal Surgeons
- Not at this time.

### Question 2

Please select any additional courses that may apply to you. Choose the appropriate species specific electives according to your research interests.

- Institutional Officials
- Post-Approval Monitoring (PAM)
- If you plan to conduct studies that have the potential to cause “more than momentary pain and distress” in Mice or Rats you should complete the module on “Minimizing Pain and Distress”.

Choose the appropriate species specific electives depending on your work or interests.

- I work with Frogs, Toads or other Amphibians
- I work with Mice, Family: Muridae: Cricetidae
- I work with Rats, Genus: Rattus
- I work with Rabbits, Family: Leporidae
- I work with Horses
- I work with Fish
- I work with Zebras

### Question 3

**Biosafety/Biosecurity**

Please make your selection below to receive the courses in the Biosafety/Biosecurity Course.

- Animal Biosafety
- Initial Biosafety Training
- Basic Introduction to Biosafety for Students
- Biosafety Retraining
- Shipping and Transport of Regulated Biological Materials
- Environmental Health and Safety
- Institutional Biosafety Committee Member
- Not at this time.
You are able to make endless changes here depending on what training you will need.

**Question 1 Animal Care and Use:** You will only be able to check one section at a time.

*Example:* I am PIs staff, but am also an animal surgeon. You would 1st check PIs staff, complete the training modules, and then go back (using the above instruction for adding a learner group) and check animal surgeon and then complete the surgeon training modules.

*Example:* I am and IACUC member and I am also the community member for the IACUC. You would 1st check IACUC members and IACUC staff, complete the training modules, and then go back (using the above instruction for adding a learner group) and check IACUC Community Members and then complete that module.

**Question 2:** Choose all that apply

*Example:* if you work with rats and mice you would check both boxes.

Question 2 Biosafety/Biosecurity: You will only be able to check one section at a time.

If you have a registered IBC protocol you **MUST** complete the **Initial Biosafety Training**.

If you are a student listed on a registered IBC protocol you **MUST** complete **Basic Introduction to Biosafety for Students**.

If you have a registered IBC protocol that includes the use of animal or you are listed on a registered IBC protocol that uses animals you **MUST** completed the **Animal Biosafety Module**.
