Course Title: Christian Discipleship

Description:

What does it mean to be a Christian disciple today? What are the characteristics of a Christian disciple? What are the challenges of living a life of discipleship in the contemporary world? This course will examine these questions using four main lenses: 1) the biblical sense of discipleship; 2) the spiritual sense of discipleship; 3) discipleship as understood in the Christian moral life; and 4) discipleship as understood in terms of agency for social change. Both theoretical and practical approaches will be employed throughout the course.
