Ethics is the study of how one ought to live—with oneself, with others, and in broader communities of practice. Bioethics is the particular study of how one ought to live (which involves how one ought to think and act) in the context of biomedicine and biotechnology. In this class, we will study ethical issues emergent from biomedical theory, practice, and policy, bringing skills of philosophical reasoning to bear on concepts informing medical understanding and practice. We will primarily be interested in exploring and excavating underlying assumptions about the human subject that typically inform conversations about ethics in the field of medicine. These include ideas related to the body, race, normality, disability, enhancement, reproduction, life, death and dying. We will read texts devoted to understanding matters of epistemology (the study of knowledge or what it is to know), ontology (the study of being or what there is), existential phenomenology (the study of lived human experience), and axiology (the study of value and notions of worth) related to health, well-being, and justice. This course, like any other, is not fully exhaustive of the rapidly growing field of bioethics, but rather offers an introduction to this cluster of topics and the questions generated therein. Welcome. I hope you enjoy.

This course supports the Department of Philosophy's learning outcomes by encouraging participants to:

- Articulate the content and scope of key topics within the field of bioethics, including patient-physician relationship, racial disparities in health, disability, reproduction, enhancement, and end of life care.
- Explain how the authors we encounter frame and answer questions related to these topics
- Demonstrate facility with author's key claims and positions and articulate their own in relation
- Determine key elements of what would constitute ethical clinal, biomedical, and biotechnological practice

**4.6** TBD

**Group Presentations** (2 each day): 4.15, 4.20, 4.22, 4.27 DB 7 TBD

5.6 FINAL FXAM DUF on D21

### COURSE RESOURCES

#### -INSTRUCTOR E-MAILS-

Marquette University's policy on e-mail: "E-mail is an appropriate and preferred method for official communication by Marquette with students. The university has the right to send official communication to students by e-mail with the assumption that students will receive, read and, if necessary, act in a timely manner based upon these e-mails." If I need to contact you outside of class, I will use your Marquette email address, and expect that you will read and respond to this communication in a timely manner. Additionally, please recognize standard email etiquette. Initial emails should contain (minimally) a subject, greeting, and closing.

-OFFICE HOURS-

YOU ARE WELCOME TO STOP BY DURING OFFICE HOURS TO DISCUSS THE COURSE;

PLEASE EMAIL ME TO LET ME KNOW WHAT TIME YOU ARE COMING BY OR TO SCHEDULE

ANOTHER TIME TO MEET.

#### **CLASSROOM DYNAMICS**

MEDIA: OUR WORK REQUIRESS PRESENCE & ATTENTIVENESS TO COURSE PARTICIPANTS & MATERIALS. PHONES & LAPTOPS SHOULD ONLY BE VISIBLE WHEN WE ARE LOOKING AT ONLINE RESOURCES TOGETHER.

PREPAREDNESS: PARTICIPANTS SHOULD ARRIVE WITH TEXTS IN HAND, READY TO DISCUSS THEM. READING IS NEITHER A SOLITARY NOR PASSIVE ACTIVITY. BE SURE TO ANNOTATE THE TEXT WITH COMMENTS/QUESTIONS IN THE MARGINS, MAIN IDEAS UNDERLINED, ETC.

DIALOGUE & PARTICIPATION: PRODUCTIVE DIALOGUE REQUIRES PARTICIPANTS TO BRING COMMENTS, QUESTIONS, & PERSPECTIVES ABOUT THE MATERIAL INTO THE CLASSROOM. PARTICIPATION IS NOT LIMITED TO SPEAKING, BUT CAN CONSIST OF ARRIVING PREPARED, LISTENING TO AND RESPECTING PEERS, AND TAKING PART IN DISCUSSION & ACTIVITIES.

RESPECT: A HEALTHY COMMUNITY LEARNING ENVIRONMENT REQUIRES MUTUAL RESPECT AT ALL TIMES, EVEN OR ESPECIALLY WHEN WE DISAGREE WITH ONE ANOTHER.

## CAMPUS RESOURCES

#### **ACADEMIC INTEGRITY**

All quotes, paraphrases, & summaries of others' work must be cited to avoid plagiarism.
