Many tables include a 5-year comparison

Be sure to comment on the trend over time in the self-study.

Each table includes data for the unit, its college, and the university overall.

In the self-study commentary, be sure to compare the unit’s trends to the college and university.

TIP: You can export the data from the repository into a Word, Excel or other format simply by copying and pasting the data table.

Footnotes provide important information about the data table, like dates, data sources, and definitions.

Data are as of the fall semester census, which is the fifth Tuesday of the term.
