

How to Create a JoVE Playlist

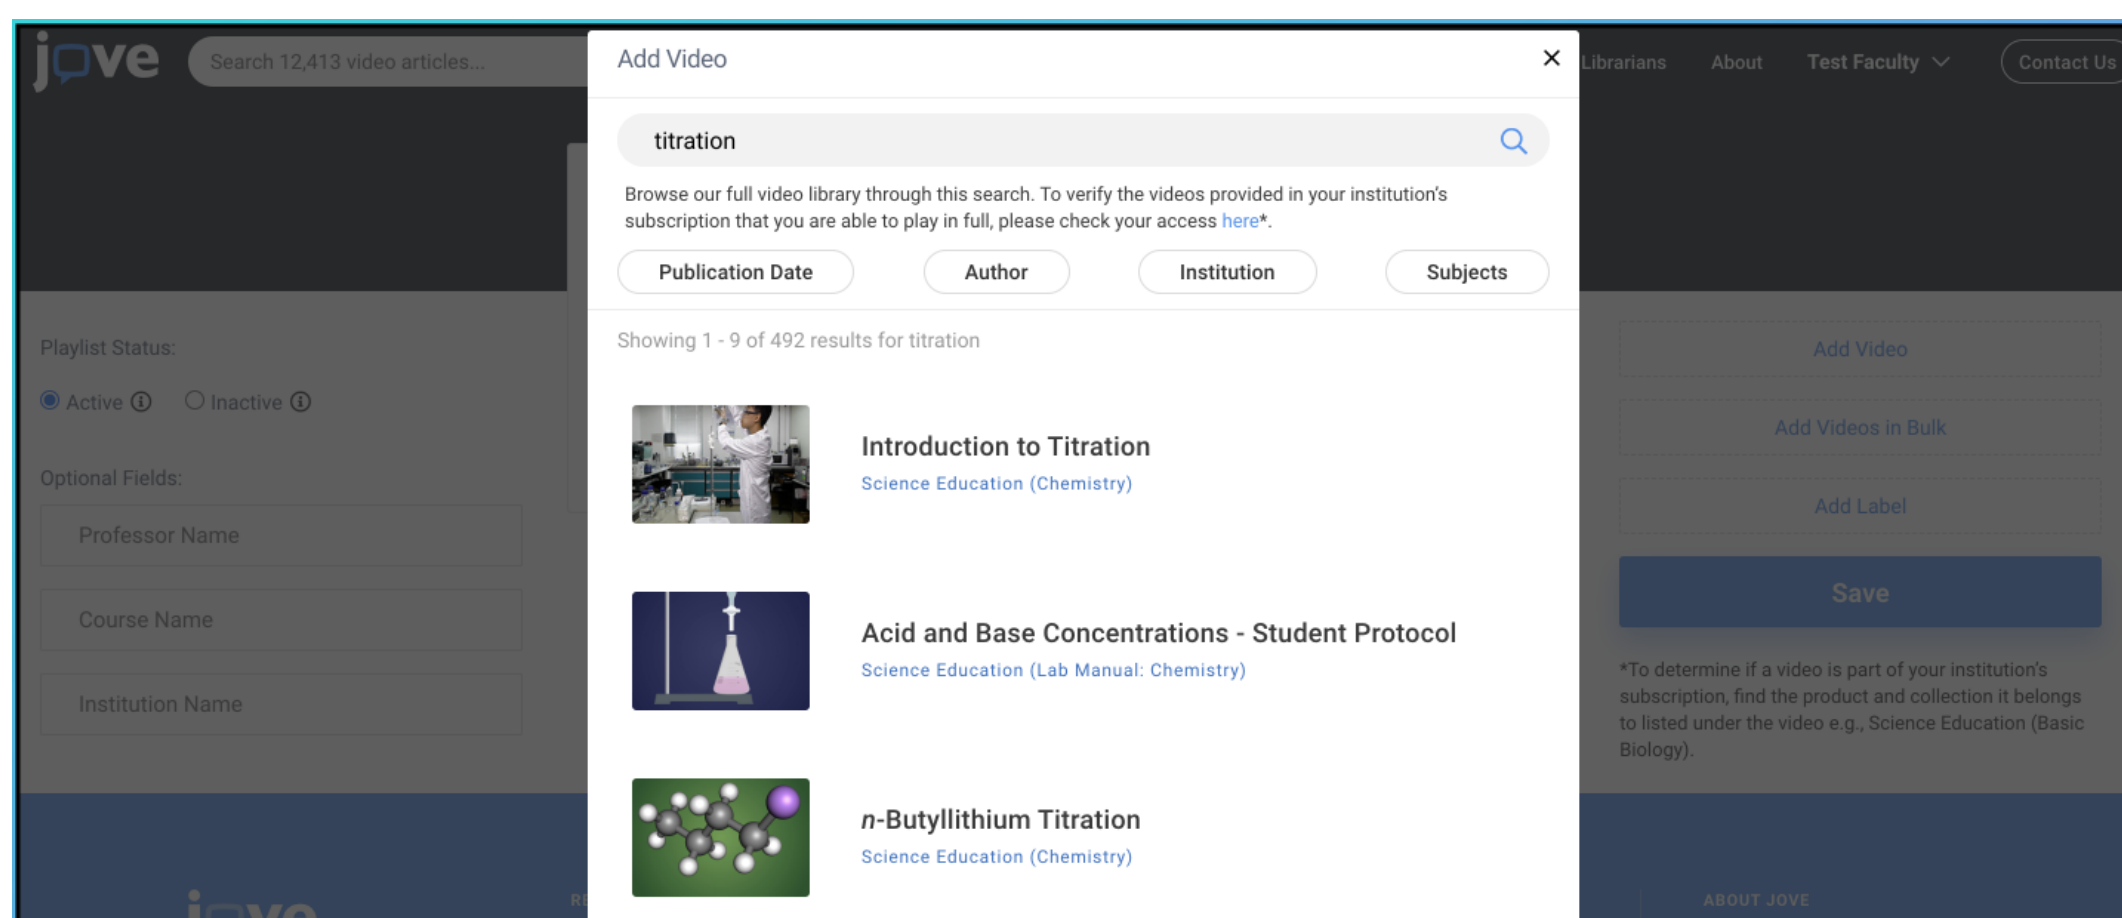

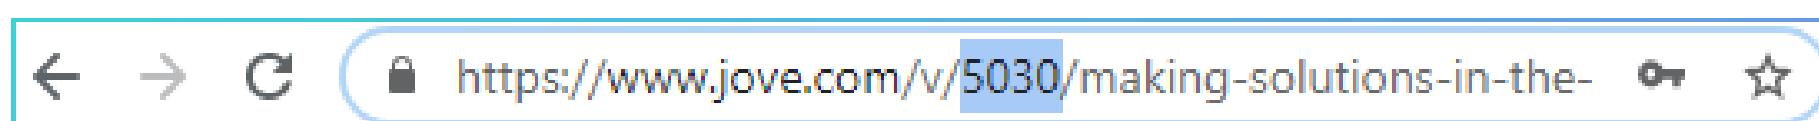

Watch a 1 min. Tutorial: How to Make a JoVE Playlist

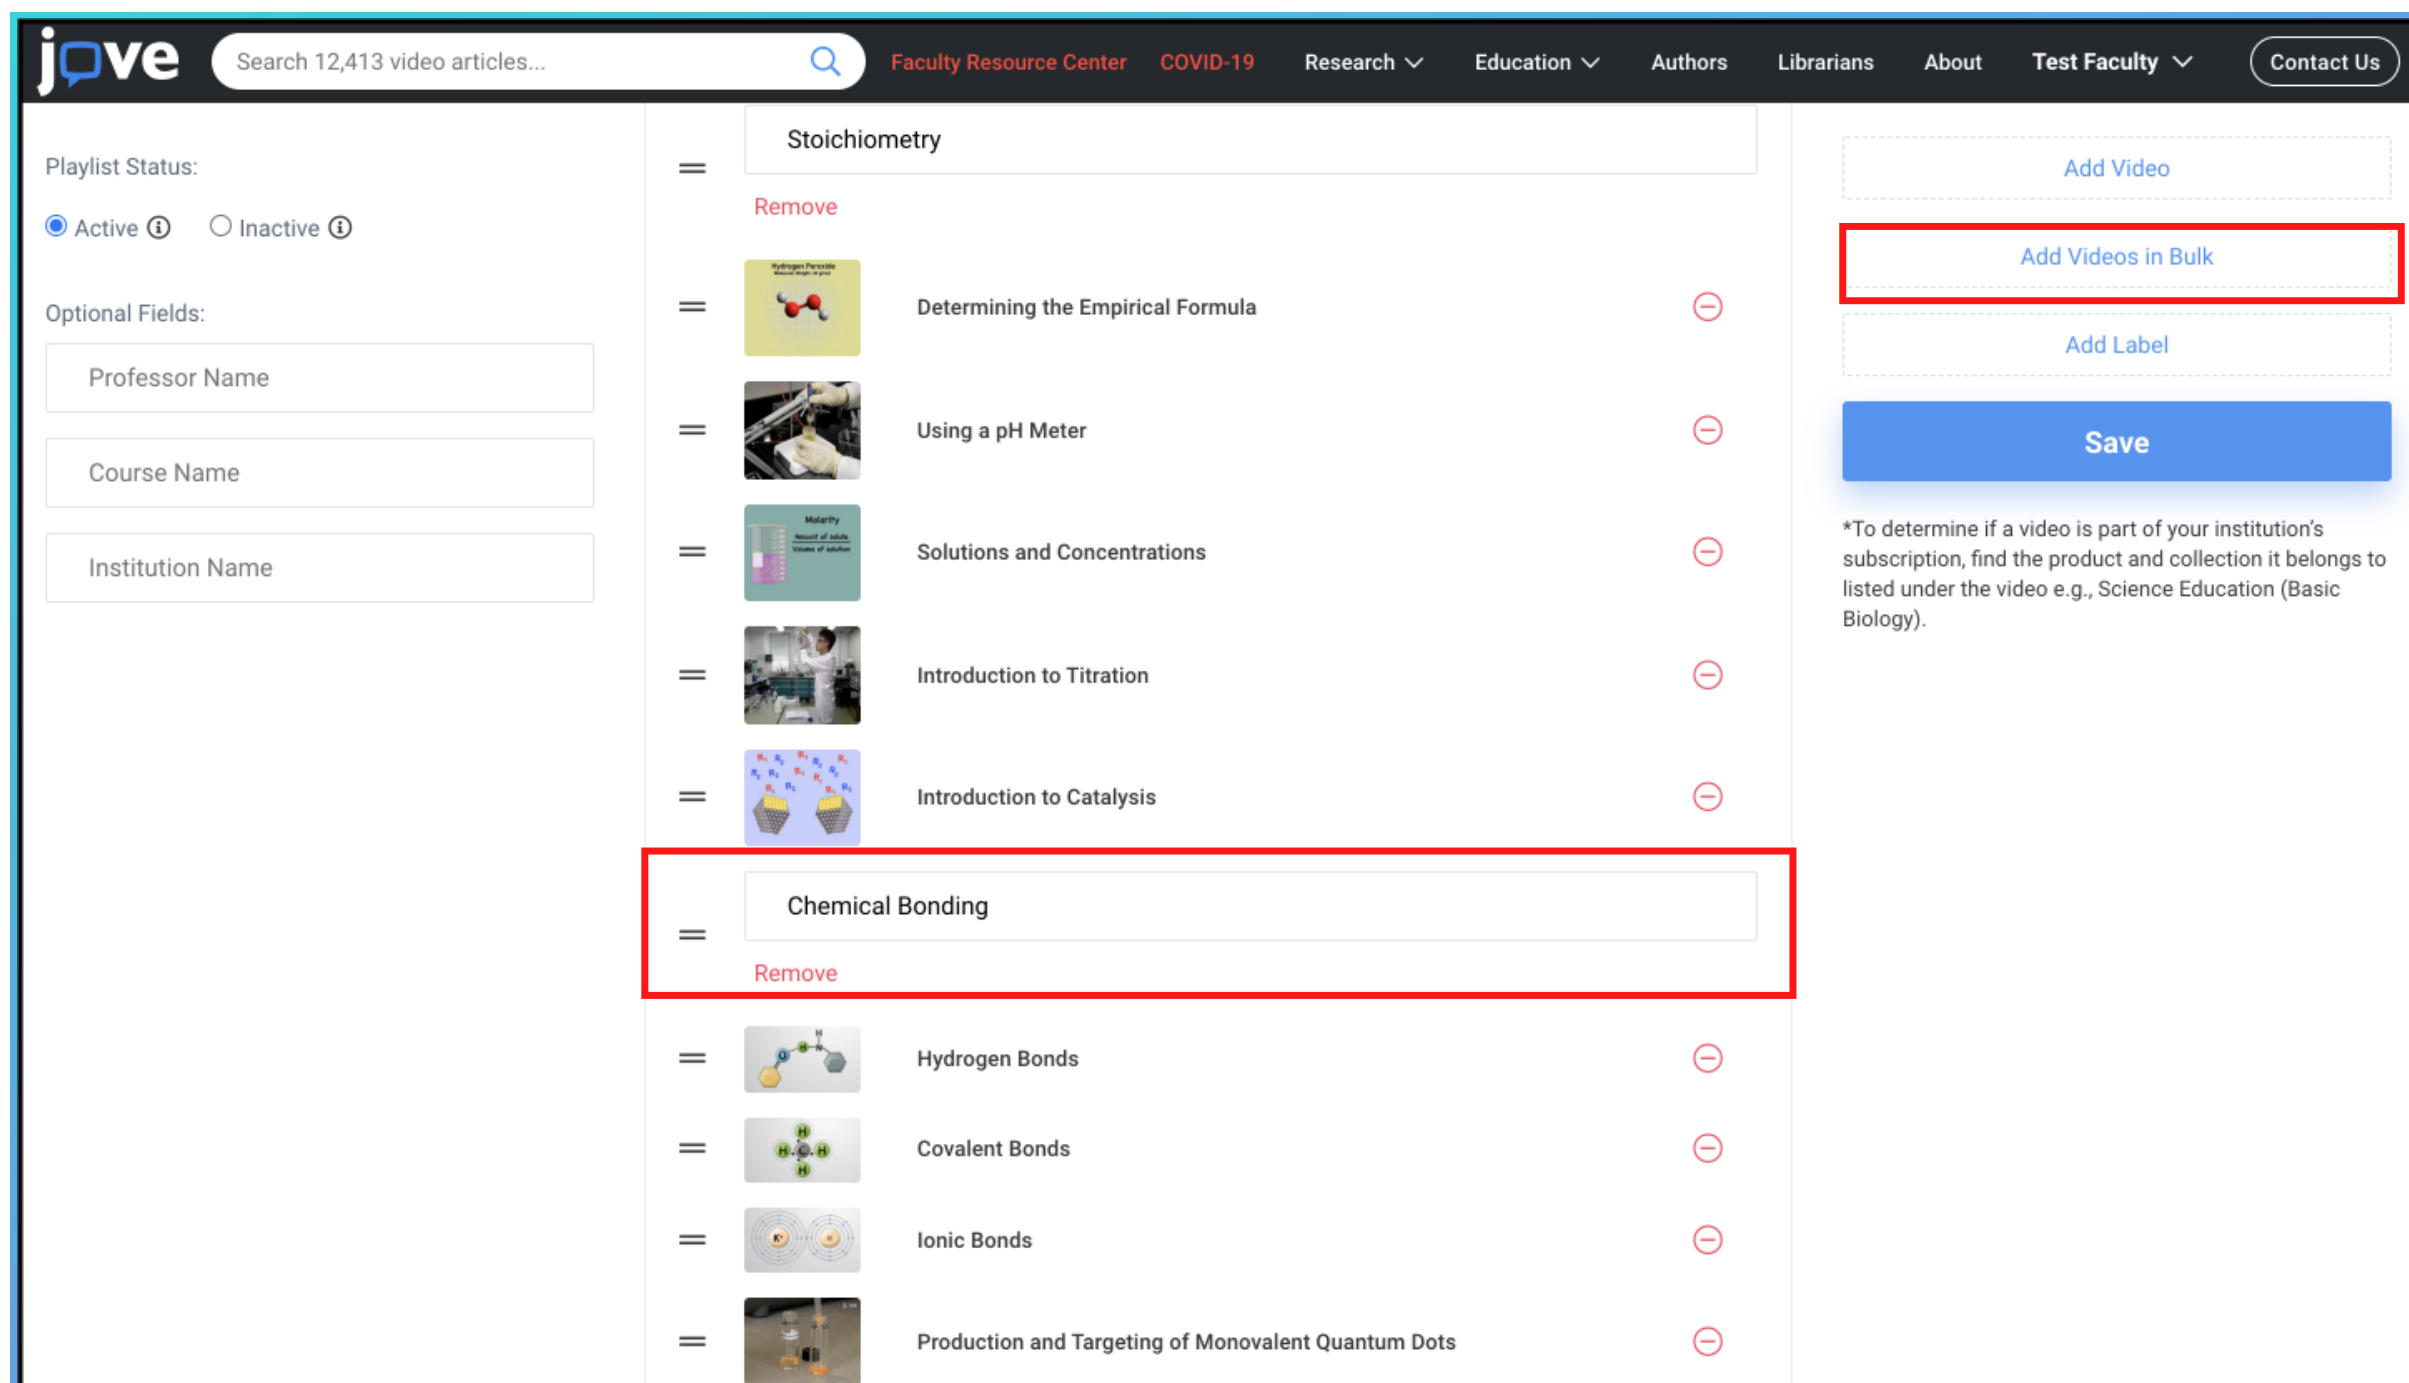

- [Log in](#) to your JoVE account and navigate to the **'My Playlists'** page from the dropdown menu

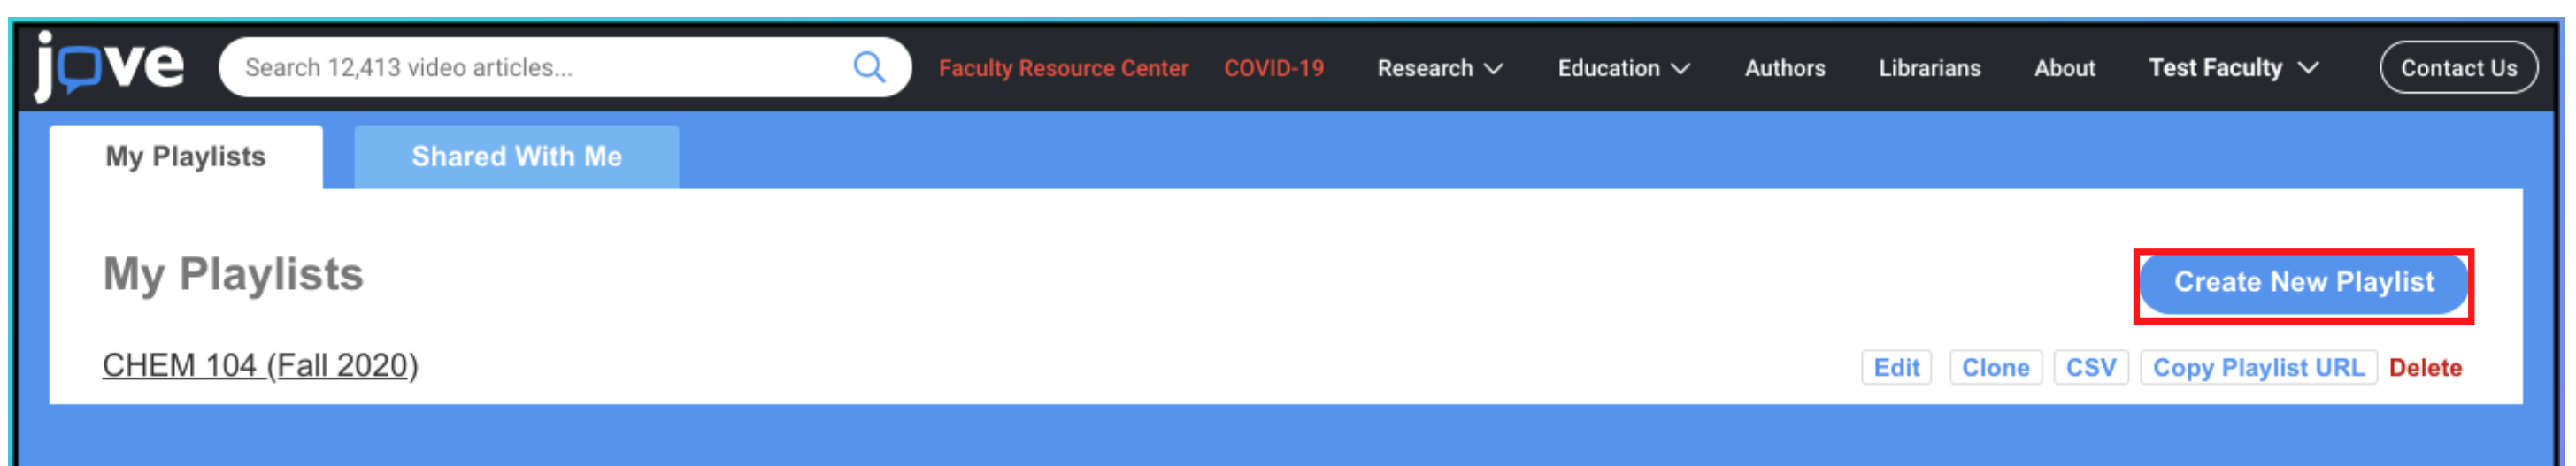

- Navigate to the **'My Playlists'** tab, and then click on **'Create New Playlist'**
- Enter a name for your playlist, select the purpose of the playlist, your field of study, and your specialty
- Add JoVE videos to your playlist by:
 - Selecting **'Add Video'** - use the search bar to find JoVE videos that suit your needs, and then click on the videos to add them to the playlist
 - Selecting **'Add Videos in Bulk'** - enter the article ID's of multiple JoVE video articles you wish to include in the playlist. The article ID for a video is the string of 4-5 numbers in its URL

- Use **labels** to organize videos into sections within your playlist

- Once you've finished creating your playlist, click '**Save**'. You will then see it on the 'My Playlists' page

- From here you can obtain a link to share it with students and colleagues by clicking on '**Copy Playlist URL**', you can also clone it, or edit it at any time
- Enjoy your new playlist!

You can also request a playlist of JoVE videos mapped to your course syllabus or training program by our Customer Success team of on-staff Ph.D.'s.
