

# DR. ROGER GREEN SELECTED AS ADVOCATES AND ALLIES TRAINING WORKSHOP SPEAKER

Dr. Roger Green

Marquette's [Advocates and Allies](#) is hosting a training workshop for faculty Advocates on November 17 and 18 (details to come). Our A&A program welcomes [Dr. Roger Green](#), Professor of Electrical and Computer Engineering at North Dakota State University, as its training speaker. Since its inception in 2008, Dr. Green has been a lead member of the NDSU Advance FORWARD Advocates, a group of male faculty dedicated to effecting departmental and institutional change in support of gender equality. As part of this group, he regularly trains men, at NDSU and other institutions, to better serve as gender equity allies. Dr. Green received his Ph.D. in Electrical Engineering from the University of Wyoming. If you have any questions, contact [Dr. Cris Ababei](#).

(Information on Dr. Green provided by WEPAN Women in Engineering ProActive Network)

## KINDER UPDATE

KINDER results are in review! Members of the team met with campus experts in Title IX and HR to collaborate on a chairs workshop later this semester. The workshop will be by invitation only, specific to STEM/SBE chairs and assistant chairs. Keep on the look-out for an invitation with details to come. Chairs will receive their KINDER results before the workshop, and be given an opportunity to do roundtable discussions at the workshop. For more information, contact [Dr. John Borg](#).

## AMP UPDATE

The fourth [AMP](#) session in the *Post-award Process Series* took place on September 12. 22 grant staff members gathered in the 707 HUB to discuss the grant life-cycle timeline. Their feedback has been added to the concerns faculty derived at the AMP Summer Social. A pdf version of the resource guide is targeted for completion by the end of the calendar, and a new website to be created by May 2023. For more information, contact [Dr. Jeanne Hossenlopp](#).

## ADVANCE Spotlight

### [Dr. Kimberly D'Anna Hernandez](#)

is an Associate Professor of Psychology. Her teaching, research and mentoring revolves around supporting minorities, especially women. She currently directs the new U-RISE at MU program, an NIH funded program designed to prepare and support undergraduate students majoring in STEM from underrepresented groups to enter and succeed in doctoral studies (Ph.D. or M.D. /Ph.D.) and careers in biomedical research. This is the first URIS grant of its kind in the Midwest! Dr. D'Anna Hernandez's research is community-based and focuses on the role of stress-related hormones on maternal behavior, and the role of acculturation and discrimination and other psychosocial measures on the biological response to stress in pregnant women, particularly Mexican and Mexican-American women. She teaches Health Disparities: A Biopsychological Perspective that examines the biological underpinnings of health disparities. Thank you, Dr. D'Anna Hernandez, for your dedication to your research and Marquette.
